

## **INVESTING IN THE VISION.**

Thank you to all of you who care about St. Mary`s and who value what St. Mary`s seeks to offer you, your friends, family and the wider community. Thank you to those of you who express your support and gratitude financially.

We could not continue without you.

The arithmetic of averages informs me that it costs £20 per adult person who attends St. Mary`s, to keep it afloat each week. Some will be in a position to give more than this and others less, but it is a statistic which I know helps some in their decision making about how much to contribute. I understand that not all of you can attend services every week, so may I suggest you set up a standing order/direct debit in favour of St. Mary`s. This ensures that the church you care about can continue when you are not able to come. Please Gift Aid it if you are a UK Tax Payer.

St. Mary`s is committed to nurturing our children and young people with a deeper sense of God`s love; to be an inclusive and welcoming community at the heart of Twickenham; to provide a sanctuary space where people can celebrate significant moments in their lives; be a place where our departed loved one`s memory can be honoured and so much else besides. It has been a spiritual as well as a cultural and social resource for the people of this area for centuries.

Please play your part in investing in its vision and contributing to its future.

With blessings and best wishes.

Jeff Hopkin Williams, Vicar
